**Subject:** RE: Community college student health centers' participation in LEA Medi-Cal billing

Dear Sang,

I understand that you have questions regarding the Local Educational Agency Billing Option Program and its relationship with community colleges. It would be helpful if you could forward us your specific questions. Since you may need background information in order to gain a better understanding of the LEA Program, I have attached a LEA Program Overview Sheet, and also suggest that you review the following resources:

1. The [LEA Toolbox](#), located under the *Getting Started* section of the [LEA BOP website](#), provides quick access to useful resources and information.
2. The [Onboarding Handbook](#) link is located in the *LEA Toolbox*. The *Onboarding Handbook* explains the history and purpose of the LEA BOP and provides guidance to new LEAs on how to become a provider and what the requirements are to enroll and participate in the program. The major participation requirements are listed below, along with each corresponding page in the *Onboarding Handbook*.
  - [Provider Participation Agreement](#) (every three years) – pg 11
  - [Annual Report](#) (annual) – pg 11
  - [Data Use Agreement](#) (every three years) – pg 12
  - [Cost and Reimbursement Comparison Schedule](#) (annual) – pg 23
  - Billing Forms 6153 and 6246 (at enrollment) – pg 13
  - Summary Chart of above requirements – pg 28
3. The [LEA BOP Provider Manual](#) is our “go to” policy guide. You may be interested in the following:
  - *Loc ed a prov 7-8* details the four Models of Service Delivery for Employed or Contracted Providers.
  - *Loc ed bil 6-7* details qualified practitioners for assessment and treatment services.

- *Loc ed rend* outlines rendering practitioner qualifications.
- Requirements for the 10 individual covered services can be found on the last ten links on the Provider Manual page.

Thank you for your interest in the LEA Program. We look forward to hearing back from you with your specific questions.

## Pending State Plan Amendments (SPA) 15-021 September 15,2015

SPA

15-021Package.pdf

623521

It usually takes a year for this to be approved and suggested changes can be billed.

No change in age. Still <22. They don't have a fee schedule for the billing. However sometimes it is approved and can go retroactive to July 1, 2015 the beginning of the fiscal year or may not go into effect until July 1, 2016 or 2017. Helpful to read through the whole plan

We can bill medi-cal students even though we don't bill our other non medical students for services.

Any questions can be directed to Sally Bratton [sbratton@ohlone.edu](mailto:sbratton@ohlone.edu)
